Webkeys

The Paper USB Webkey by PXK is a paper USB card, which allows your customer to fully integrate a USB drive into printed material such as flyers or business cards. There are various card formats available to choose from with full colour printing on both sides, along with either matt or gloss finish.

Your challenge is to make sure the web page they are taken to is compelling and has appropriate content or incentives to encourage the user to stay on the pages and ultimately to complete the desired task.

**Contact us today to find out more:
0800 008 7079**

Kingston USB Sticks

Kingston USB flash drives go through a rigid, high quality manufacturing process and carry a five-year warranty. Kingston branded USBs include the DataTraveler Series that features hardware encryption.

This is great news for companies who distribute data to large numbers of people via USB sticks and still want to keep this data select and secure. The flash drives may be Kingston branded but we can still print or engrave a logo onto them offering an effective and secure way to promote any brand.

UK Stock

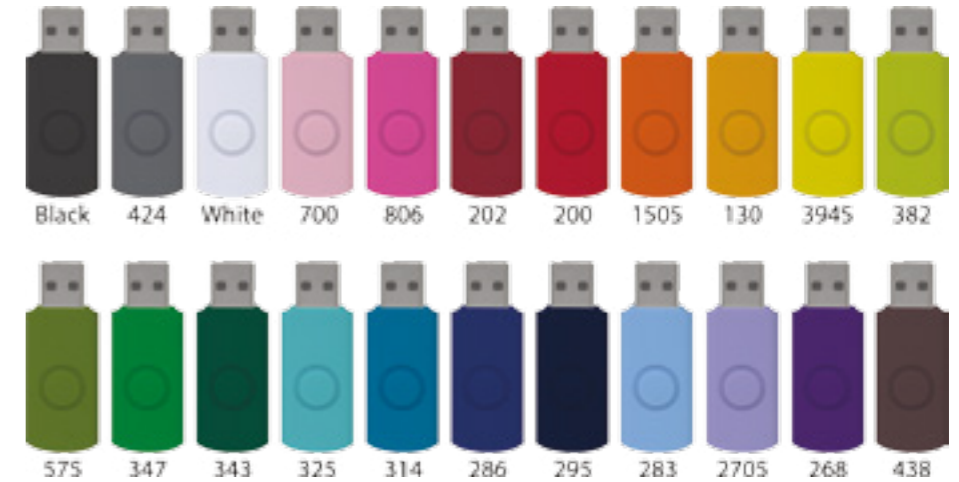

Twister USB

The Twister is by far our most popular USB stick. We are proud to be able to offer an amazing selection of colour options for both body and clip from UK stock. Pantone matching is available on request (10 day lead time applies).
